POLICY STATEMENT OF DISTRICT COUNCIL CHAIRPERSON

Tandahimba District Council is one among nine Council's Authorities in Mtwara Region. The Council daily outcry is to improve the living standard of her people through sustained economic development.

People are being urged through self- help projects at their respective villages to work hard and ensure participation of every member of village community. Not only implementing projects but they should as well work by engaging in self-initiated projects, various productions say in agriculture and livestock, and other income generating activities.

Our obligation is to steer head development in the district thus ensure that people contribute their own effort towards reaching their own set goals and achievements. The emphasis is to let every able person especially youth to engage in economic productions and income generating activities.

The council will comply with sector policies to make sure that social economic services delivery to our people are improved.

Thanks,
